

## External Auditor Independence and Non-audit Services Policy (Approved by the Audit Committee on 9 November 2023)

---

### Introduction

The Company's policy aims to ensure we maintain the independence and objectivity of our External Auditor (the "**Auditor**") as set out in the UK Corporate Governance Code, the FRC Revised Ethical Standard 2019, the Guidance on Audit Committees, CMA Order and relevant legislation.

The policy extends to all the worldwide subsidiaries of the Company and covers our processes and procedures relating to:

1. The rotation of the Auditor;
2. The rotation of Audit partners, lead and key;
3. The provision of non-audit services ("**NAS**") by the Auditor; and
4. Appointment of staff previously employed by the Auditor.

### Auditor Rotation

The contract for external audit services will be put out to tender at least once every 10 years and a new External Auditor will be appointed at least every 20 years.

The intention to tender, where possible, will be announced in advance of the commencement of the tendering process.

Having conducted a tender and appointed a new Auditor in August 2022, the latest point to undertake the next tender will be after the **2031/32 year end** at which point the current Auditor **could** be re-appointed for a **further 10 year term**, following a competitive tender. Under the terms of the current legislation an Auditor cannot hold office for more than 20 years.

There are no contractual obligations restricting the Company's choice of Auditor and the Audit Committee is free to conduct a tender exercise at any time. Should the Audit Committee approve a tender exercise, the fact and the reasons for it will be disclosed to shareholders as early as is practicable.

### Partner Rotation

The Auditor shall comply with the relevant UK legal, ethical and professional guidance with regard to the rotation of audit partners and other senior audit staff.

Each year, the Auditor shall confirm to the Audit Committee that all audit firm rotation requirements have been met.

### **Non-audit services and procedure for approval**

The Company's default position is that the External Auditor should not provide any non-audit services ("**NAS**") to the business.

It is recognised however, that the Auditor will have a significant understanding of the Group's business and that this knowledge and experience can be utilised to the Group's advantage in certain areas. These are specified in Appendix 1.

1. Where NAS are allowed, fees for NAS shall not exceed 70% of the average Group statutory audit fees incurred for the last three consecutive financial years (the "**70% Cap**").
2. Contingent fee arrangements are not permitted for any NAS.
3. The sourcing of all allowed NAS, where the billable fee will be up to £100k, will require the approval of the Audit Committee Chairman. If the fee is anticipated to be over £100k, approval of the full Audit Committee will be required. Management will present the rationale for requiring the Auditor to conduct the activity and the impact on the 70% Cap.
4. The level of NAS fees will be monitored by the Chief Financial Officer and the Audit Committee. This will be reported to the Audit Committee on a regular basis.

### **Employment of former employees of the Auditor or the Company**

The Company and the Auditor agree on a restricted hiring policy:

- i. the Company will not hire partners or professional employees of the Auditor to become key management personnel who have been involved in the external audit of the Company's Half or Year End accounts within the previous two financial years, nor will it take employees of the Auditor on secondment; and
- ii. the Auditor will not hire any officers, director or employee of the Company for involvement in the Company's external audit within two years after termination of their employment with the Company.

## Appendix 1
